

# Courses, workshops and licences | Foxx.ai

Canonical: <https://nextjs.foxx.ai/products>

## Details:

Everything Foxx.ai sells, with prices in Australian dollars. Each product page carries its current availability.

**Courses** **AI Fundamentals Course** A self-paced video course covering how large language models work, how to prompt them well, and how to judge their output. Twelve lessons, about four hours in total, with a graded project at the end. AUD 149.00 Available now

**Workshops** **Prompt Engineering Workshop** A live two-day online workshop on structured prompting, evaluation and guardrails for teams shipping AI features. The next intake opens on 3 November 2026; seats are limited to twenty. AUD 890.00 Pre-order

**Licences** **Foxx Learning Team Licence** Ten seats on the Foxx learning library for one year, with admin reporting and single sign-on. Current stock is allocated; new licences ship from the next allocation in about three weeks. AUD 2400.00 Back-order

**Courses** **Agentic Systems Masterclass** An advanced course on designing agent systems: tool use, memory, evaluation and safety. The current cohort is full and enrolment is closed until the next one is announced. AUD 1290.00 Sold out
